Data Grapher

Brief Description: The Data Grapher will develop graphs and other figures for medical scientific research papers.

Applicant Requirements:

1. Bachelor's degree required. Master's degree in a relevant field preferred.
2. Extensive experience creating graphs from data required.
3. Strong familiarity with computer software used for graphing data required.
4. Basic familiarity with statistical analysis would be advantageous.
5. Familiarity with scientific journals or medical research would be advantageous.
6. Rigorous attention to detail and neatness required; an eye for the overall clarity of visual presentations would be advantageous.

Full Description: The employer is an alumnus of Wesleyan University (1993) and two European universities, running an established multinational medical research & writing service. The position

involves generating or editing “figures” (mostly bar graphs and curves) from datasets for medical research papers. At a minimum, the Data Grapher should know how to create professional quality graphs of scientific data. Ideally, the Data Grapher will be able to discuss with the Principal Investigator and the Statistician how best to approach the data presentation, thus contributing expertise from a visual / graphic-design perspective. Initially, the Data Grapher will provide services on a part-time, on-call, freelancer basis. However, there is opportunity to develop and expand the volume of work and kinds of services.

Benefits:

Meaningful work. The Data Grapher is making a valuable supporting contribution to scientific medical research, which ultimately saves people’s health.

Compensation. Negotiable, based on educational background, past experience, and demonstrable skills.

Professional Development. It is anticipated that even the most highly qualified candidates will be learning extensively and continually developing better abilities to present complex scientific data with visual clarity.

Flexibility. Work when and where you want. No office politics.

Application:

- a cover letter,
- resume
- portfolio samples
